PROINSO Launches EPM Partnership Program in South East Asia on the back of supplying 5MW for an installation in the Philippines

PROINSO strengthens its position in the Philippines with its participation in the Great British Festival in Manila

- PROINSO has recently supplied 5 MW for a project in MANILA which included SMA Tripower inverters.
- The company will be taking part in the event that will be held from February 27th to March 1st organized by the British Embassy in Manila.
- From booth #42 PROINSO will present its Engineering, Procurement and Management program for the Asian pacific area. Also launching of Mecasolar structures which are manufactured by PROINSO affiliate Company.

24 February 2015. – PROINSO supplied 5 MW in PV solar products for an installation located in the Philippines which included SMA Tripower inverters. The supplied facility starts PROINSO sales in this market. This is further evidence of PROINSO's increasing mandate in the ground mount and roof-top market in South East Asia.

As part of the ongoing program to strengthen the presence in South East Asia, PROINSO will be attending the Cities of the future show in the Great British Festival in Manila (booth #42). The event, which will be held from February 27th to March the 1st, is organized by the British Embassy in Manila.

Proinso recently launched as well a new Engineering, Procurement and Management service program across the area. The Program supported by the Asia Pacific Program Management Office located in Brisbane, Australia, offers Technical support, Project Management services and system monitoring and asset management services ensuring consistency of service across the region. Under the program PROINSO has already completed roof-top and ground mount projects through-out the region. PROINSO has completed ground mount and roof-top projects in Philippines, Hong Kong, Indonesia, Malaysia and Thailand to date.

ABOUT PROINSO www.proinso.net

PROINSO specializes in the distribution of integral PV Systems. The product line includes various inverters, modules, trackers, structures and accessories from leading manufacturers.

International markets account for 88% of PROINSO's sales. PROINSO currently has offices in Spain, Germany, Greece, Italy, USA, UK, Canada, China, Brazil, Australia, Japan, South Africa, Mexico and India.

PROINSO has supplied 1.4+GW globally and has an International network that currently consists of more than 2500 qualified installers.

PROINSO suministra 5 MW para un proyecto en Filipinas y presenta su nuevo programa para el Sudeste Asiático

PROINSO refuerza su presencia en el mercado Filipino con su participación en el evento "Cities of the future" del Great British Festival de Manila.

- PROINSO ha suministrado recientemente 5 MW de material fotovoltaico para un proyecto en MANILA que incluye inversores SMA Sunny Tripower.
- Continuando con su apuesta por el mercado PROINSO participa, del 27 de febrero al 1 de marzo, en la feria "Cities of the future" organizada por la Embajada británica en Manila.
- Desde su espacio (stand #42) PROINSO presentará su nuevo programa para la región Asia Pacifico, además de lanzar la solución de estructura que MECASOLAR tiene para el mercado.

24 febrero 2015. – PROINSO ha suministrado 5 MW de material fotovoltaico para un proyecto ubicado en Filipinas que incluye inversores SMA Sunny Tripower. La multinacional inicia a través de este suministro su trayectoria en el mercado filipino, reforzando su posicionamiento en el sector fotovoltaico de instalaciones de suelo y tejado del Sudeste Asiático.

Además, PROINSO consolida su presencia en el sector filipino a través de su participación en la feria "Cities of the future", que se enmarca en el Great British Festival, organizada por la Embajada británica en Manila. El evento, en el que la compañía cuenta con espacio propio (stand #42), se celebrará en la capital filipina del 27 de febrero al 1 de marzo.

La compañía presentara durante la exposición su nuevo programa EPM (Engineering, Procurement and Management Services) para la región de Asia-Pacifico. El programa, que contará con el soporte de la de oficina de gestión de la zona ubicada en Brisbane (Australia), ofrecerá soporte técnico, gestión de proyectos y sistemas de monitorización de instalaciones ofreciendo una gestión integral de proyectos en toda la región. PROINSO ha completado hasta la fecha proyectos de suelo y tejado en Filipinas, Hong Kong, Indonesia, Malasia y Tailandia.

ABOUT PROINSO www.proinso.net

PROINSO está especializada en distribución de módulos fotovoltaicos, kits solares, inversores, estructuras y seguidores, baterías, cargadores, aplicaciones solares en urbanismo y movilidad fotovoltaica, soluciones para autoconsumo, sistemas de generación aislada y elementos de monitorización.

PROINSO, cuyas ventas provienen en un 88% de mercados exteriores, cuenta en la actualidad con delegaciones en España, Alemania, Grecia, Italia, Estados Unidos, Gran Bretaña, Canadá, China, Brasil, Australia, Japón, Sudáfrica e India. //
